Proposed Solution

The **Employee ID Card Request** project automates the complete employee ID card request process using ServiceNow Service Catalog, Flow Designer, and Approval Workflows. Employees can submit ID card requests through a self-service portal, and the system automatically routes them for approval, creates request records, updates request status, and sends email notifications. This solution reduces manual effort, speeds up request processing, improves transparency, and enhances overall HR service efficiency.

Objectives

Automate employee ID card request processing.

Reduce manual work and processing delays.

Improve request tracking and status visibility.

Enhance employee satisfaction.

Key Features

Service Catalog

Automated Approval Workflow

Flow Designer

Email Notifications

Request Tracking

Expected Benefits

Faster request processing

Improved operational efficiency

Better transparency

Reduced manual errors

Enhanced SLA compliance
